Nothing bites like a Piranha vice!

The ultimate quick-change system for high-end machining!

Piranha Gepard vises and clamps have the highest clamping force due to the gliding bars.

- No pre-clamping
- Best quality and accuracy
- Minimum material loss due to 3mm clamping depth
- Lowest construction height
- Open construction for quick cleaning
- High repetition accuracy 0.01mm
- Hardest functional surface
- EMPA tested spindle on tension for extreme clamping forces of 1350 Nm²
- 100% Swiss Made
