TRIM® MicroSol® 585XT high-lubricity, semisynthetic, microemulsion coolant provides superior sump life and foam control!

TRIM MicroSol 585XT is a high-lubricity, semisynthetic, microemulsion coolant. The formula delivers extended sump life and better foam control versus previous generation semisynthetics.

It provides excellent cooling and mechanical lubricity, along with the machine-friendly characteristics you expect from a premium TRIM coolant. While it is particularly well suited for machining and grinding gray iron, it does very well in mixed metal situations. MicroSol 585XT has proven to be an exceptional machining fluid for titanium alloys.

- Dramatically extends useful life without the need for tank-side biocides or fungicides
- Low foaming for today's demanding high-pressure, high-volume applications
- Compatible with a very wide range of material including cast iron, steels, copper, titanium, and aluminum alloys, and many plastics and composites
- Optimized combination of cooling and lubricity for titanium machining applications
- Provides superior corrosion inhibition on cast iron and eliminates "hot chip" and clinkering problems
- Excellent alternative to chlorinated soluble oils on high-silica aluminum alloys
- Contains no nitrites, triazines, phenols, and chlorinated or sulfurized EP additives
- Provides superior corrosion inhibition on all ferrous and nonferrous metals
- Keeps machines very clean while leaving a soft fluid film for ease of cleaning and reduced maintenance
- Uses standard metalworking recycling and disposal techniques

TRIM® MicroSol® 585XT

TRIM® - Achieve cutting-edge operations with globally-recognized TRIM cutting and grinding fluids. Utilize TRIM fluids to reduce labor, downtime, fluid, disposal and tool costs. Ensure code compliance, excellent operator acceptance, provide safer workplaces and deliver bottom-line savings. Try TRIM MicroSol and see the advantage!

Master Fluid Solutions offers a complete line of fluids:

TRIM - Cutting-edge operations with globally-recognized TRIM cutting and grinding fluids.
Master STAGES - to clean and protect rely on Master STAGES cleaners and rust preventatives.
XYBEX® - Maximizes productivity, minimize waste and dramatically reduce costs with XYBEX.
