MAQ PSC Back-End Turning Tools (Capto and HSK)

MAQ is launching turning tools with PSC (compatible with CAPTO) on the market. The connection provides fast tool change, repeated precision and high rigidity in the rotational direction of the clamping device.

Have you already invested in multi-task machines to increase automation and shorten production cycle time? The MAQ PSC back-end product series will be a great tool for you to achieve your return on investment.

MAQ has offerings with diameters 16, 20, 25 and 32 mm with the PSC32 backend (compatible with CAPTO C3) as well as diameters 16, 20, 25, 32 and 40 mm with PSC40, PSC50, PSC63 and PSC80 (compatible with CAPTO C4, C5, C6 and C8).

Turning – Multitask with modular backends.
